

# PIERRE DE FONTVAL

## AOP Vinsobres Red 2019

The Rhone Valley is one of the oldest vineyards of France. The region draws its identity and character from the Rhone River that has sculpted the valley over the millennia. Between the diversity of the terroirs and the richness of the varietals, the Pierre de Fontval range of wines offer a journey into the heart of the emblematic appellations of the Rhone Valley.

Blending tradition and modernity, Pierre de Fontval proposes structured wines that are produced with passion and generosity. Seeking to bring conviviality and sharing, these cuvées will match seamlessly with any dishes they are served with.

We understand the fragile nature of the environment we have inherited and the need for sustainable preservation of our soils. Pierre de Fontval proposes wines that are engaged and produced with sustainability in mind, respectful of the wildlife and flora. This philosophy guides each of our appellations to ensure our vineyards are sustainable, thus perpetuating the quality of the wines.

- **Varietals:** 50% Grenache, 50% Syrah.
- **Soil composition:** clay limestone, marl, clayey sandstone and rolled pebbles.
- **Average age of the stocks:** 40 years.
- **Vinification:** Traditional method, between 3 to 4 weeks in vats with controlled temperature between 28 and 30 °C.
- **Maturation:** Maturation in concrete and steel vats.
- **Residual sugar content:** < 2 g / litre.
- **Tasting notes:** Intense deep red colour. The nose is potent and fruity. The mouthfeel is fresh, well-balanced with a pleasant structure.
- **Ideal serving temperature:** 16°C to 18°C.
